

Ecolabelled Products and Services in the UK

Reed Harris's current campaign on the back of London buses for ecolabelled floor tiles / Reed Harris

Department for Environment, Food and Rural Affairs
September 2008

This list shows the range of products available in the UK which have been awarded the European Ecolabel, including tourist accommodation facilities.

When contacting companies about them, please ask specifically for those products which have the Ecolabel – and when shopping, look for the Flower.

News – Commission publishes plans for enhancing the Ecolabel

In July 2008 the European Commission adopted a proposal to amend its present Regulation controlling the Ecolabel scheme.

The proposal would make a series of comprehensive changes to the scheme, extending it to cover an expanded range of products and services (including food and drink), and seeking to make it more attractive to manufacturers and encouraging them to innovate, by simplifying and speeding up the procedures for obtaining the Ecolabel.

Other changes would mean the end of annual fees, and a more detailed criteria development process.

The proposal now needs to be debated and agreed by Member States before coming into effect. It is part of a major package of measures to promote Sustainable Consumption and Production (SCP), so if agreed, the Ecolabel would have a stronger focus on those products and services with the most significant environmental impacts and highest potential for improvement. The Ecolabel criteria documentation would also provide guidance for public purchasing authorities.

More information: http://ec.europa.eu/environment/ecolabel/revision_en.htm

Recent Ecolabel awards include -

- **The Merino Company's** 100% merino wool products
- **Derrygonnelly Field Studies Centre** in Co Fermanagh
- **Wpro's Natur** range of surface cleaning products
- **The Earth Collection** cotton products - see <http://www.theearthcollection.com/NEWSTotal.htm>

This month you can see the Ecolabel featured in -

- **Reed Harris's** promotion on the back of London buses (above)

UK events coming up featuring the Ecolabel include –

- **The Promotion of the EU Ecolabel to Public Procurers and Suppliers**, a one-day workshop for public procurers, suppliers and manufacturers on **14 October 2008**, at the European Commission in Brussels, organised by ICLEI - Local Governments for Sustainability: details from amalia.ochoa@iclei.org

Some products in this list have been licensed in other European countries which have told us that the products are available in (or coming to) the UK – for example, the **Earth Collection** has been awarded the Ecolabel by Denmark. If you can't find an ecolabelled product in the UK, you could look at the European Commission site <http://www.eco-label.com> which shows all ecolabelled products in Europe, and gives more details about the products listed here. You can purchase products from many companies on the Commission's list through the internet – for example, from **Mesign** in Denmark (mail@mesign.dk), which sells ecolabelled clothing for children.

You may come across the Ecolabel in other ways as well – for example, **John Dickinson Stationery Ltd** in the UK (<http://www.johndickinson.co.uk/>) makes some of its envelope ranges from paper awarded the Ecolabel in Finland, and leading UK companies use ecolabelled products for the linen rental industry made by **Beirholms** (www.beirholms.dk).
